As versatile as you

Supreme flexibility – The SATAjet® 5000 B

The premium spray gun SATAjet 5000 B sets new quality standards; makes painting easier than ever before. Being extremely versatile in terms of application distance and inlet pressure, this new high performance spray gun is leading the way. Now, painters have the possibility to set pressure and distance as required by the paint to be applied, the climatic conditions and the work method – to achieve perfect finishes.

Ergonomics at its finest

The design of **SATAjet 5000 B** has been created by the experts at the Porsche Design Studio who have translated pure functionality into aesthetic form together with the specialists at SATA. Due to the optimized shape of the gun handle, the spray gun fits perfectly in the palm of the hand. In addition, the gun handle of the digital version is identical in size to the standard model which makes it the perfect spray gun for all painters, regardless of the size of their hands.

Easy to operate

Our quest for excellent ergonomics however has not only influenced the development of the gun handle, but equally the design of spray fan control, material flow control as well as the air micrometer. Robust but still low in weight, this spray gun offers a perfect combination of ease of application and durability.

SATAjet 5000 B. The ultimate spray equipment.

PRODUCT BENEFITS

- Optimized nozzle concept for highest possible versatility concerning inlet pressure and spray distance
- Ergonomically shaped gun handle
- The pearlodized™ surface is a technical enhancement of the "pearlchrome" surface to further improve corrosion resistance as well as ease of cleaning and maintenance
- Easy to adjust control elements
- Safely positioned trigger sleeve – for easy, safe and quick insertion of the paint needle
- Identical compact-size gun handle for non-digital and digital spray guns
- Optimized round / flat fan control with half-turn only

Accessories:

SATA® adam 2™

To upgrade non-digital spray guns to "DIGITAL" – the version for retrofitting the **SATAjet 5000 B Standard and the SATAjet**

5000 B PHASER without integrated digital pressure gauge. Ensures correct setting and display of the gun inlet pressure for highest reproducibility.

Fit the SATAjet 5000 B and SATAjet 5000 B PHASER only
Part No. 211557 complete chrome
Part No. 1031715 complete black
Part No. 211565 each, dock only
Part No. 211573 pk of 2, dock only

SATA trueSun
including battery charger
and battery
Part No. 1012129

Further useful accessories like air hoses, respirators, compressed air filters etc. are available from your SATA dealer.
